

2025 ENERGY STORAGE SUMMIT

The Energy Storage Summit USA will return in March, taking place at a new and improved venue for 2025. The US remains at the center of the global energy storage industry, with California having surpassed 7GW of grid-scale energy storage installations, ERCOT going from strength to strength, and new markets across the country opening up.

Now in its 7th year, the Summit is not only America's Largest Energy Storage Conference but is the only place where you are guaranteed to meet all the most important investors, developers, IPPs, RTOs and ISOs, policymakers, utilities, energy buyers, service providers, consultancies, and technology providers in one room.

is set to be a pivotal year for the global energy transition, as we reach the halfway point in a significant decade for the planet on its path to net zero. Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead.
