

ALFREDO SOLAR BRAZIL

Alfredo Moser (* 1951 in Itaja?) is a Brazilian mechanic, and the inventor of the solar bottle bulb, known also as the "Moser Lamp", or the PET bottle lamp. [1] [2] His invention led to the creation of the open-source organization Litter of Light, which offers sustainable lighting to families without electricity access in numerous countries worldwide.

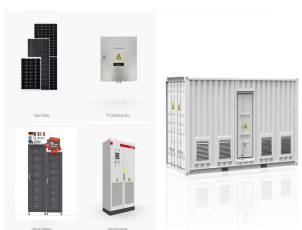

The organization manages electricity installation in Brazilian homes, from quilombos to riverside communities of the Amazon region, and as a spin-off of Moser's original invention, developed a way to power the lamp/bulb by solar ???

Alfredo will look at the challenges grids are facing with ever-increasing penetration of renewables, both in general (ww) and specifically in Chile. He will then depict the solutions offered by energy storage, using multiple use cases around the world, with ???
