

# ALL ABOUT SOLAR PANELS MADAGASCAR

Is Madagascar ready for solar power? With all regions of Madagascar enjoying over 2,800 hours of sunlight per year, the Grande Ile is the perfect location for development of solar power, with a potential capacity of 2,000 kWh/m<sup>2</sup>/year. The Government is counting on this potential to fulfill its objective of providing energy access to 70% of Malagasy households by 2030.

How much solar power does Madagascar have? With only a 15% connection rate, Madagascar faces a chronic lack of access to electricity, which hampers its economic and social development. However, there is tremendous potential in terms of solar power, estimated at 2,000 kWh/m<sup>2</sup>/year as a result of the 2,800 hours of annual sunlight the country enjoys.

What is Scaling Solar in Madagascar? Madagascar is currently the fifth country in Africa in which a Scaling Solar tender process was launched, after two tender processes in Zambia, one in Senegal, and another in Ethiopia. It is also the first Scaling Solar project to include solar energy storage requirements by pairing solar with batteries.

Does Madagascar have a business climate? In the World Bank Group's Doing Business 2018 report that assesses the business climate, Madagascar ranks 184 out of 190 countries for access to electricity. Keenly aware of this challenge, in 2014, the Government of Madagascar decided to embark on intensive reforms to transform the sector.

How can the government finance large-scale solar plants? To supplement public funds in order to finance large-scale construction of solar plants by promoting private investment, the International Finance Corporation (IFC), the private sector arm of the World Bank Group, is helping the Government set up a public-private partnership (PPP).

The Madagascar electrical grid operates at 127 Vac 50 Hz, and AIMS Power Inverters can be a precious resource in the event of a power outage. In a place like Madagascar, power outages can be common due to natural disasters and other uncontrollable events. Visitors of Madagascar and current residents know that power outages happen "all too often".

APPLICATION SCENARIOS

5 ? Groupe Filatex plans to commission four solar PV plants with total capacity of 50MW in Q1 2021. The plants had been due to start up by December, but the date was pushed back due to coronavirus travel restrictions. The 20MW Tamatave, 12MW Majunga, 10MW Diego and 7MW Tulear solar plants will be the first renewable projects commissioned by the company in a ???

FORT DAUPHIN, Madagascar--(BUSINESS WIRE)-- Rio Tinto has signed a power purchasing agreement for a new renewable energy plant to power the operations of its QMM ilmenite mine in Fort Dauphin, Southern Madagascar. This project, which uses solar and wind energy, will significantly contribute towards Rio Tinto's operations in Madagascar

Madagascar is one of the sunniest countries in the world with more than 3,000 hours of sunshine per year, so decentralised solar power supply to rural areas is not only easier but also cheaper. atmosfair finances the construction and operation of decentralised solar power grids ("solar mini-grids") in the southwest of the island

The Solar United Consortium is a joint programme led by the registered NGOs Money For Madagascar, Feedback Madagascar and SEED in partnership with the solar technicians at the Madagascar social enterprise Jiro-Ve. We are launching Light Libraries, testing solar cooking and developing solar-powered digital learning technologies and materials.

Dear sirs, The company Tanatech has existed since 2008 in the field of renewable energy, particularly solar energy. We keep in stock a range of components and accessories for installations and repairs for quick deployment of customer demands, for retail and wholesale sales. To ensure customer satisfaction, we offer after-sales service.

The Madagascan government is launching invitations to tender for the construction of two solar photovoltaic power plants with a combined capacity of 210 MW. Interested companies have until 9 August 2023 to apply.
