In November 2021, Masdar signed an agreement with the Government of the Republic of Armenia to design, finance, build, own and operate a utility scale solar photovoltaic (PV) project between the communities of Talin and Dashtadem in the Aragatsotn Marz region. The 200-megawatt (MWac) project will be Armenia's largest utility-scale solar plant.

Explore the premier online Armenian store, your ultimate destination for acquiring authentic Armenian products. With a rich legacy spanning 13 years, we proudly present an extensive selection, featuring books, handcrafted treasures, ???

In the 1950s, archaeologists discovered the unique bronze model of the solar system dated back 12-11th centuries BCE in the Sevan basin in Armenia. This is one of the oldest geocentric solar system models preserved nowadays. The artifact is currently housed at the History Museum of Armenia.

Masrik Solar, Armenia's first grid-scale solar photovoltaic (PV) project, is a key element of that strategy. The World Bank has helped the government with feasibility studies and support preparing the Masrik project since 2015. In 2017, the government, with support from the World Bank, launched a successful international public tender for a

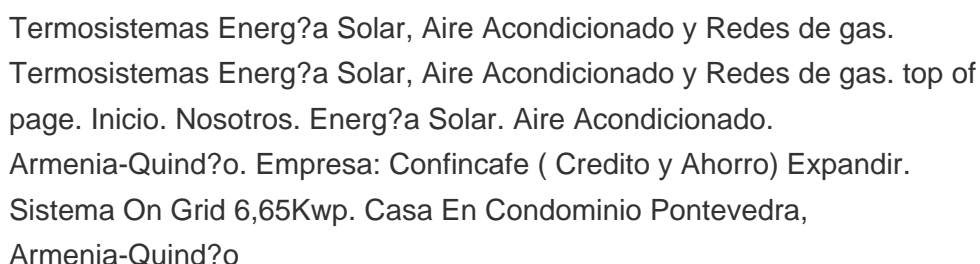

Armenia is on the brink of a renewable energy revolution as the construction of its largest solar power plant, Masrik-1 is well underway in the Gegharkunik region. Spearheaded by the Shtigen Group, this ambitious project promises to reshape the country's energy landscape and significantly reduce its carbon footprint.
