It will produce 156.189 billion kilowatt-hours over 25 years, potentially removing 147Mt of carbon dioxide emissions. In April 2024, Arcotech secured a contract to provide 1.5GW of trackers for a solar project in Saudi Arabia.. The ASB project, for which the trackers will be supplied, was described as the largest solar plant under construction in the Middle East.

El sistema de seguimiento solar, como una de las soluciones a atender este desafio, puede mejorar la eficiencia de generaci?n de energ?a al obtener m?s radiaci?n solar mediante el ajuste de la orientaci?n de los m?dulos y la reducci?n del ?ngulo generado entre los m?dulos y la luz solar directa.Los seguidores de Arcotech son soluciones con un alto retorno de la inversi?n y ???
