Based on Aruba (local time -4 GMT) Solar solutions are perfect for here. There are many ways to use the sun for your solutions. I use this mainly for generating electricity, but at the same time as a Dark/Light switch as well. Electronics, small mechanics, small construction is what I like. Yes, in our house we use electricity and hot water

Streamlining the solar energy approval process is the first and most crucial step. Encouraging more businesses and homeowners to invest in solar will help Aruba reach its renewable energy goals and attract eco-conscious tourists. Aruba has the potential to be a leader in green energy and sustainable tourism, but decisive action is required today.

As mentioned above, SolarCity was once the leading residential solar installer in the U.S. SolarCity heavily pushed a lease model for solar installations, which was ideal for homeowners when the cost of installing solar was high. Many solar leases are \$0-down agreements, and the solar company owns the equipment.
