Energiran Company has been established on 1970 as a full-services and multi-disciplined EPC contractor providing services to Iran's Oil, Gas and Petrochemical Industries as well as power plants. Energiran has collaborated in execution of various industrial projects including engineering and design, procurement and construction management.

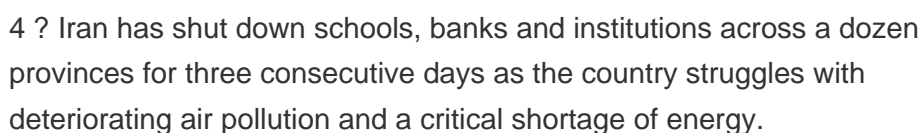

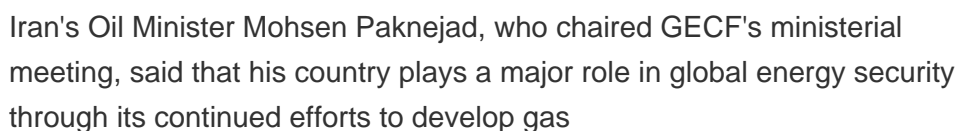

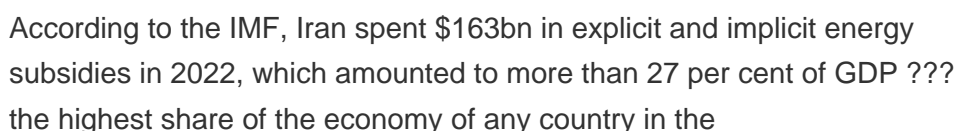

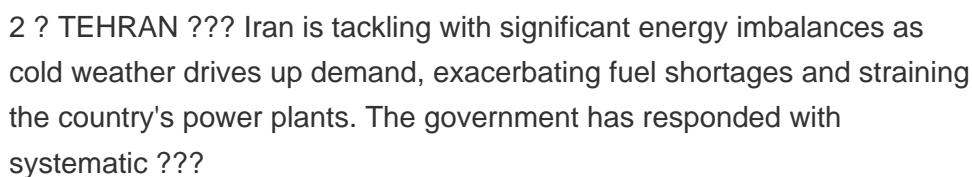

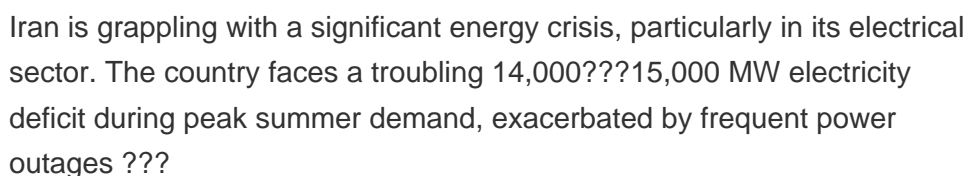

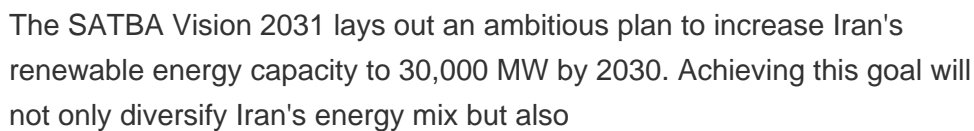

On October 10, 2024, Iran's Ministry of Energy announced that it will schedule power outages across the country during the cold season as fuel runs short for power plants. Power outages have increased across Iran over the last few years, but this year's announcement suggests electricity insecurity in Iran will only get worse.

3 ? Iran is in the grip of a worsening energy crisis, as rolling blackouts and natural gas shortages disrupt daily life across the country. With temperatures plunging and energy demand surging, more than 20 provinces, including ???

Subsidies for energy products were obtained from the Energy Balance sheets for 2017 (Iran's Energy Balance, 2017). Pollutants emissions were obtained from Farajzadeh (2018). Another piece of data applied to build the modified SAM is the exchange rate to calculate subsidies based on the price gap approach (Central Bank of Iran, 2017). The

It's more than just energy; it's Solar. Energy Storage. Freedom.

Iran's energy minister says the country seeks to increase electricity generation capacity from the renewable sources of energy to 50 gigawatts (GW) in the next five years. Abbas Aliabadai said on Monday that the government will provide loans and incentive to households and private sector investors who contribute to the expansion of the renewable sector in Iran. "We plan to bring the
