---

How will a battery energy storage system benefit Curaçao? The implementation of a Battery Energy Storage System will allow Curaçao to collect energy from renewable sources such as wind and solar energy and store it using advanced battery storage technologies. This stored energy can be released to mitigate the intermittency of wind power and ensure grid stability.

Will Aqualectra revolutionize energy management in Curaçao by 2030? As a part of Aqualectra's ongoing efforts to continue improving its services and better serve the people of Curaçao, this agreement aims to fully revolutionize energy management in Curaçao by 2030, ensuring reliable, affordable, and sustainable energy for the island.

When did Aqualectra start negotiating a battery energy storage system? Negotiations for this Battery Energy Storage System began in January of this year, when Aqualectra's management team traveled to the Wartsila headquarters in Finland with a vision, firm determination and clear objectives to make it all happen.

Will Aqualectra participate in the CARILEC Conference 2024? To further highlight the impact of their cooperation, the Aqualectra team has been invited by Wartsila to take part in panel discussions at the Chief Executive Officers & Leadership CARILEC Conference 2024, held from May 19th to 22nd in Puerto Rico.

Up to 7 Hours of Playtime plus 2 Hours with Playtime Boost Don't sweat the small stuff like charging your battery. JBL Go 4 gives you up to 7 hours of playtime on a single charge. Output power: 4.2 Watt; Dynamic frequency response range: 90 Hz - 20 kHz; Bluetooth: Yes; Curacao is a department chain store with locations in California
