

BLUEWATER ENERGY SERVICES SWEDEN

What services does Bluewater provide? The company also provides operational and logistic management and support for FPSO and FSO systems. Since 2006 Bluewater has developed various technologies for renewable energy.

Who is Bluewater mooring & energy production? At Bluewater we use our decades of experience to provide safe and reliable offshore solutions. We take pride in being one of the technological leaders for offshore mooring and energy production systems. We take care, think dynamically, are inspired to make impact and are committed to deliver.

What is Bluewater FPSO? This includes solutions for renewable energy as well as continued development of existing energy related solutions to give answer to the continuing, global energy demand. Bluewater owns and operates a fleet of high specification FPSOs designed to operate in the harshest environmental conditions, under the most stringent regulatory regimes.

What mooring systems does Bluewater offer? Bluewater has developed some of the most innovative SPM solutions, including catenary anchor leg mooring (CALM) buoys and tower, internal and external turret mooring systems. Bluewater's tidal energy converter (BlueTEC) is an open-architecture floating support platform suitable for tidal turbines.

On 2021-12-28, Jernbro Industrial Services AB (Jernbro) agreed with Axel Johnson International AB to acquire all shares in GISAB (Gillivare Industrise 2014 and had during that era the opportunity to build and develop the company to become a strong player in northern Sweden. With Jernbro and the partnerships that GISAB has built over the

Bluewater Energy did a great job installing the system, in fact they stepped in when the first company I hired went bankrupt and got my system installed on time and on budget. It was a truly remarkable feat. They really are a professional outfit, the best in the business. I can't say enough about solar power, and Bluewater Energy.
