Just three years ago, Brazil did not feature among the world's top producers of solar energy, but by 2023 it had risen to sixth place in the rankings. The pace of growth has been notable: since 2022, the country has added, on average, roughly one gigawatt of solar capacity every month. Last year, solar overtook wind power to become the country's second-largest ???

In 2023, the price of solar modules in Brazil fell by an average of 40%, mainly due to the expansion of the Brazilian solar industry. The average monthly electricity bill for a house in Brazil is R\$500, while the cost of installing solar energy on the roof is around R\$15,000, according to the price simulation table of the concessionaire Portal
