

# BULGARIA PROVARIIS ENERGY

---

Who is provaris energy? We're connecting the world to a clean energy future. Provaris is as an early mover in the future of energy, developing integrated green hydrogen projects for export to regional markets through the simplicity and efficiency of compressed hydrogen. On 3 May 2024, Provaris Energy Ltd announced that it is undertaking a Share Purchase Plan (SPP).

Who is provaris? More details here. Provaris is the 100% developer of a 2.6 GW renewable green hydrogen project for export markets into Asia, located on the Tiwi Islands, Northern Australia.

Is provaris an impact investment? While our business and future projects can create inherent positive impact, the adoption of the WEF framework has already paid ESG dividends. Provaris will update the market regularly on its ESG progress and seek to ensure the company remains an impact investment for shareholders and local communities.

When does provaris energy offer a share purchase plan (SPP)? On 3 May 2024, Provaris Energy Ltd announced that it is undertaking a Share Purchase Plan (SPP). The SPP Offer Booklet and application website is available here. The offer closes at 5pm (AWST) 31 May 2024.

Why does provaris support all the development phases of a project? The choice to support all of the development phases of a project is in line with Provaris's strategic desire to develop and invest in profitable hydrogen projects across the value chain, with a measured risk profile, and to retain an equity position of these assets over the long term.

# BULGARIA PROVARIIS ENERGY

When does the provaris spp offer close? The offer closes at 5pm (AWST) 31 May 2024. If you have any questions in relation to the SPP, please call the Provaris Shareholder Information Line on 1300 850 505 (within Australia), or +61 3 9415 4000 (outside of Australia). Compression supports the development of simple and energy-efficient green hydrogen supply chains for regional markets.

In alignment with the EU's drive for renewable energy, Provaris, Uniper and Norwegian Hydrogen continue to move toward binding agreements under a collaborative MOU targeting long-term green hydrogen supply.

Our vision "We're connecting the world to a clean energy future" recognises that ESG considerations are inherent to our wider business model and believe that this overarching corporate vision is well-aligned with our sustainability ???

Provaris Energy is actively involved in two collaborative projects focusing on the export of green hydrogen. These projects utilise the company's compressed hydrogen storage storage barge and ???

Provaris Energy has signed an MOU with Norwegian Hydrogen to collaborate on developing green hydrogen export supply chains in the Nordics and beyond. The agreement is a major ???
