

BUY NOW PAY LATER SOLAR GENERATOR LATVIA

How long do solar panels last in Latvia? Solar panels require almost no maintenance during their lifetime. In addition, rain cleans the surface of the panels well. The payback period for correctly adapting to the consumption of solar panels is 4-7 years. Why are more and more people in Latvia installing solar panels and inverters?

How many solar panels are installed in Latvia? As of June 2023, the number of solar panels installed by the Latvian population and connected to AS "Sadale tīkls" reached 15,000 units, and their total capacity exceeded 120 MW - about 15% of the total electricity consumption in Latvia on a sunny day. Solar panels have a lifespan of more than 25 years.

How much sunlight does Latvia receive a year? In our climate, one square meter of surface receives an average of 1200 kWh per year from the sun. The duration of direct sunlight in Latvia exceeds 1800 hours. The new type of solar panels produces energy with the so-called scattered radiation, which exists around us for 4000 hours.

Jackery solar generator is a solar solution that combines a portable power station with solar panels. It converts sun energy captured by solar panels into electrical power and then stores it in a portable power station for later use. Jackery solar generator is a reliable and clean power source for campers, RVs, or as a
