

CABO VERDE PRIMA POWER CENTRAL EUROPE

What is the European Union's Global Gateway strategy in Cabo Verde?
This decision falls under the European Union's Global Gateway strategy in Cabo Verde. 1) Support for Cabo Verde's energy sector, with Team Europe funding of 159 million provided by the EIB, European Union and Luxembourg. This involves designing and building an electricity generation, grid and storage system up to 2029.

How will the European Union help the Cabo Verde government? The European Union is working with the EIB to provide the Cabo Verde government with 105 million in financing to expand and modernise several of the country's strategic ports, notably Porto Grande in Mindelo on the island of S?o Vicente, Porto Novo on Santo Ant?o and the port of Palmeira on Sal.

Does Cabo Verde have a national electricity master plan? This investment falls under Cabo Verde's national electricity master plan 2018-2040, and will reduce the country's dependence on expensive and polluting fossil fuels by 2040. It will also provide new storage capacity for electricity from renewable sources.

Why do we invest in Cabo Verde? The investments show our ongoing effort to position Cabo Verde as a regional leader in technology and renewable energy. They also illustrate our ability to form high-level international partnerships, reflecting global confidence in our vision and policies.

Prima Power's global presence embodies its dynamic approach and unwavering focus on customers. With a widespread industrial and sales and service footprint, the company strategically positions itself where it's needed most.

CABO VERDE PRIMA POWER CENTRAL EUROPE

The European Union has been actively contributing to the development of the blue economy in Cabo Verde. The blue economy in Cabo Verde shall contribute to the following areas: trade, job creation, scientific knowledge, value chain consolidation, environmental protection, biodiversity, and maritime security.

Cabo Verde is an archipelago strategically positioned in the Atlantic Sea, at 500 miles from the African continent. Despite its limited natural resources (mainly sun and wind) and vulnerability to climate-related challenges, Cabo Verde achieved lower middle-income status in 2008. Tourism represents around 20% of the national GDP.
