Wrong. Solar in the day to run house/business and charge batteries, and batteries at night. No CUC. Grid sized battery storage is now a reality. Solar is almost on par with the most efficient fuel generating systems and getting cheaper by the day. More importantly, domestic solar generation and battery storage will make CUC irrelevant very soon.

Caribbean Utilities Company is reopening applications for customers who want to connect their distributed renewable energy sources, like rooftop solar panels or wind turbines, to Cayman's
