

What is China International Energy Storage Conference? The China International Energy Storage Conference is a platform focusing on industrial energy storage manufacturing. Here we showcased new technologies and were very happy to see many customers coming to our booth to communicate. In the future, we will participate in the exhibition with better solutions.

When is the energy storage International Conference & Expo (Esie)? The Energy Storage International Conference and Expo (ESIE) will take place on 3 days from Thursday,10. April to Saturday,12. April 2025in Beijing. 10. - 13. April 2024 07. - 09. April 2023

Why did we attend the Cesc international energy storage Conference? The CESC International Energy Storage Conference provided us with a broad communication platform, where we met many industry elites and gained a lot. The conference was well organized and the presentations were rich in content, which gave us confidence in the future of the energy storage industry.

Why is China promoting energy storage at the 2025 two sessions? The buzzword ???energy storage??? at the 2025 Two Sessions underscores China???s strategic focus on building a resilient, sustainable, and diverse energy system, contributing new efforts to a sustainable global future. The country???s progress in new-type energy storage highlights how innovation can drive both economic and environmental progress worldwide.

Who sponsors the energy storage Conference 2025? As the first exhibition of the energy storage industry in 2025, this conference is sponsored by BYD and the dinner is sponsored by Sineng Electric.

What is the energy storage exhibition & docking platform? It is one of the most influential industry exchange and docking platforms in the global energy storage field, and is known as a high-standard exhibition with high gold content and strong guidance in the energy storage industry. It is a weathervane for the development of China's energy storage industry.

China market: Pumped Hydro Storage share falls below 50% for the first time. Non-hydro Storage accumulative installations surpass 50GW for the first time. According to CNESA DataLink's Global Energy Storage Database, ???

China's energy storage market size surpassed USD 93.9 billion last year and is anticipated to grow at a compound annual growth rate (CAGR) of 18.9% from 2023 to 2032. The Chinese government is increasingly focused ???

On April 22nd, the CESC2024 China International Energy Storage Conference, hosted by the Jiangsu Energy Storage Industry Association, opened at the Nanjing International Expo Center. This conference, themed ???
