

CITY SOLAR COMPANY SENEGAL

Does Senegal have a solar power plant? In addition to acquiring 112 MW of installed solar capacity, Senegal is also focusing on wind and biomass. The Senegalese government recently inaugurated the Diass solar power plant located 40 km south-east of the capital Dakar. The installation, which has a capacity of 23 MWp, was financed by the German Development Agency (KfW).

How many jobs will the new solar power plants create in Senegal? The addition of the solar power plants form part of the World Bank Group's Scaling Solar program and are funded by the International Finance Corporation (IFC), European Investment Bank and Proparco. The project estimates that more than 400 jobs in the towns benefit from the existence of the new solar power plants in Senegal.

Who owns Senegal's solar farm? The power station was commissioned on 22 May 2022 by the President of Senegal Macky Sall and his guest Olaf Scholz, the Chancellor of Germany. The solar farm is owned and operated by Soci  t   nationale d'  lectricit   du S  n  gal (Senelec), the national public electricity utility parastatal company.

Why should Senegal invest in solar power plants? Solar power plants in Senegal form part of the strategy for increasing access to electricity, focusing on regenerative sources. Senegal's government wants to become an emerging economy by 2035 and the energy sector is one of the major components of Senegal's growth. Rural areas remain the most challenging areas to install power grids.

Who sponsors Senegal's solar power plants? The PV plants, located in Western Senegal, are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments (FONSIS). The competitive tendering process was led by Senegal's Energy Regulatory Commission (CRSE). For more information, please read the press release [here](#).

Who financed the Senegalese solar park? The construction of the solar park was financed with a loan from the German development agency Kreditanstalt f r Wiederaufbau (KfW). The plant has been designed to operate for 25 years. According to the authorities, the plant is capable of supplying 33,000 Senegalese households.

The project was tendered under IFC's Scaling Solar Programme in Senegal and was awarded to Meridiam and Engie as a consortium in April 2018. The project benefits from a 25-year take-or-pay PPA with Senelec backed by a State Guarantee from the State of Senegal. Meridiam and the Project Company engaged the same local E& S advisor mobilized
