

CONGO REPUBLIC SMARTER GRID INTERNATIONAL

Is there a green mini-grid market for rural electrification in Congo? This paper, part of the Green Mini-Grid Market Development Programme (GMG MDP) document series, assesses the green mini-grid market for rural electrification in the Democratic Republic of Congo.

What is a mini-grid in Congo? ??? Carried out by the private sector, the mini-grids will be at the heart of the government strategy to promote access to electricity in areas not served by the national company, ??? said the Congolese Minister of Finance after the signing of the agreement.

Which provinces does each grid in Congo cover? The western grid covers the Central Congo and Kinshasa provinces, the eastern grid covers North Kivu and South Kivu provinces, and the southern grid covers the Haut-Katanga and Lualaba provinces. The western and southern grids are connected through the 500kV Inga-Kolwezi link. However, the distribution network across the link is under-developed.
