Solar hot water systems in the Seychelles uses the sun energy to heat water to be used in your house of business. It is the most energy efficient way to produce hot water. The tank and panel are mounted onto your roof and plumbed into the house. The system has an electrical booster that can be turned on if additional heating is required.

Battery back-up or off-grid solar PV systems in Seychelles are completely independent of the electricity grid network. Other terms may include stand-alone, battery back-up or hybrid photovoltaic systems. For instance, they are ideal if you want to be independent of the energy producer or live in a remote location/island, such as Seychelles.
