---

What is the cost of electricity in Djibouti? The cost of electricity in Djibouti is 23.4 US cents per kWh (in 2017). This is higher than the costs in Ethiopia, which were 4.7 and 4.4 US cents/kWh in 2016 and 2017, respectively.

Why is Djibouti constructing a solar farm? Djibouti's \$390 million solar farm is under construction in southern Djibouti as a result of a public-private partnership between Djibouti's Ministry of Energy and Natural Resources and Green Enesys, a German renewable energy firm. Construction began in 2018 after \$50 million in funding was secured by the World Bank and other financiers.

Where does Djibouti's energy come from? Most of Djibouti's energy supply, around 80%, is sourced from neighboring Ethiopia. At the end of 2023, Djibouti was among the select few countries throughout the world that had yet to install any PV capacity, according to the International Renewable Energy Agency (IRENA).

What is a power purchase agreement (PPA) in Djibouti? Amea Power has secured a power purchase agreement (PPA) for a 25 MW solar-plus-storage project in Djibouti. It will be the country's first independent power producer (IPP) project and is now in development under a build-own-operate and transfer (BOOT) framework.

Will AMEA Power Invest in Djibouti's first IPP project? The solar plant is the country's first IPP project and will be developed under a BOOT model. The Sovereign Fund of Djibouti (FSD) will be joining the project before financial close as a minority shareholder, AMEA Power said, without providing additional details.
