The next Energy Week will be held in Chile in 2025, leading up to the Dominican Republic's hosting in 2026. These meetings are significant for promoting political and strategic dialogue on energy issues among the 27 member countries of OLADE, fostering strategies to reduce reliance on fossil fuels and transition towards a more sustainable energy matrix.

In an era where the transition to sustainable energy is imperative, Dominica is making significant strides in refining its regulatory landscape to enable a thriving energy sector. This advancement is propelled by a key partnership between USAID ???through the Energy Sector Reform Project??? and Dominica's Independent Regulatory Commission.
