

# ECPOWER EU GERMANY

The reduction of worldwide power consumption will certainly be a key component of whether exhaust reductions targets both in Europe and worldwide can be attained. Improving energy effectiveness provides the methods for European infrastructure to not only reduce power usage and exhausts but also enhance efficiency, competition and also a success.

The first projects have also started in Germany. The XRG(R) control system has all the functions to organise joint operation in the heating centre. EC POWER A/S Sams?vej 25 8382 Hinnerup. Peque?as pero resistentes: XRG(R) 6 y XRG(R) 9. Nuestros modelos m?s peque?os son aut?nticos fondistas:XRG(R) 6 y XRG(R) 9 solamente requieren una parada en boxes para mantenimiento cada 10 000 horas de servicio. Esto es posible gracias al motor de gran potencia de Toyota, desarrollado especialmente para EC POWER.

Unidades de cogeneraci?n y soluciones completas de EC POWER. Dentro de lo eficiente, lo mejor: Conozca nuestras unidades de cogeneraci?n XRG(R), descubra soluciones completas para un suministro de energ?a con garant?a de futuro y comprenda por qu? merece la pena ir m?s all? de la simple calefacci?n.

Effizienz von BHKW: So vergleichen Sie richtig. Effizienzpr?fungen h?lt das XRG(R) stand. Sein Gesamtnutzungsgrad von bis zu 106 % (mit Brennwertnutzung) bedeutet, dass die eingesetzte Energie im vollen Betrieb nahezu vollst?ndig ausgesch?pft wird. Mit konstant hohen Nutzungsgraden punktet es auch bei langfristiger Messung.

Einfach: 50 % weniger CO<sub>2</sub>. Ein BHKW verfeuert Gas ??? doch Gas gibt's heute l?ngst in gr?n. Mit dem Power-to-Gas-Prinzip ist es m?glich, Strom aus erneuerbaren Quellen in klimafreundliches Gas umzuwandeln, das sich leicht speichern l?sst.

Instalacje XRG(R) w por?wnaniu modeli. Od nieruchomomo??ci mieszkalnych po komercyjne: Dla ka? 1/4 dego budynku o ca??orocznym zapotrzebowaniu na energi?? elektryczn?? i ciepln?? istnieje odpowiedni agregat kogeneracyjny XRG(R).

For a quarter of a century, EC POWER has represented a pioneering spirit and special innovative strength, as demonstrated by more than 25 patents. With XRG(R), we are the market leader for Mini CHPs in Germany and the leading manufacturer for the technology of Mini cogeneration plants in Europe.

Das Power House ist die All-in-One-Energiegel?bung von EC POWER f?r Wohn-, Gewerbe-, Industrie- und Verwaltungsgeb?ude. Es bringt die komplett Heizzentrale in einer aussenliegenden, schl?sselfertig gelieferten Energiezentrale unter ??? und Ihnen die zahlreichen Vorteile

Seminars for the XRG(R) If you are a CHP-newcomer or long-term professional: We have the appropriate information offering. The EC POWER Academy provides everything, from the basic course to learn about the advantages of the cogeneration of heat and power, to the expert's seminar including professional exchange.

H?chstes Sparpotenzial beim Heizen. Unsere XRG(R)-Blockheizkraftwerke nutzen die im Brennstoff enthaltene Energie fast vollst?ndig aus und liegen bei der jahreszeitbedingten Raumheizungs-Energieeffizienz branchenweit vorn. Das heisst: Sie ben?tigen viel weniger Ressourcen als andere Versorgungs-systeme, um die gleiche Menge Strom und W?rme zu ???

XRG(R) ??? BHKW der Extraklasse. Es gibt viele gute Gr?nde, die f?r ein Blockheizkraftwerk (BHKW) sprechen: Es spart Energiekosten, verbessert die Klimabilanz und macht ein Geb?ude zukunftssicher.

Furthermore, with more than 25 patents, it is the technology leader in Europe. Founded in 1996 in Denmark ??? a pioneer country of the energy transition and, above all, of the combination of power and heat ??? we established ourselves in Germany in 2008 and are currently linked with the best representatives in the sector. Trust in the XRG(R)
