Small run-of-river hydroelectric plants pose a great challenge in terms of control for turbine manufacturers. What is needed is a control system that guarantees robustness, that can be simply and quickly replicated in plants of the same type, and above all that has the right degree of customisation to allow the manufacturer to meet the end customer's needs.

, Energy Control Systems has designed and installed building automation systems that provide climate-controlled energy conservation to help you reduce the cost of heating, cooling and lighting your facility. Whether you need a system to handle a small freestanding building or a total solution for a complex, multi-building property, we
