Here's what MoneySavingExpert founder Martin Lewis said about the Energy Price Cap in his instant reaction to the rise on Twitter: "First, here's the new average Direct Debit cap (it varies by region though):. ELEC - Standing charge: 60.99p daily (from 60.12p) UP 1.4% - Unit charge: 24.5p per kWh (from 22.36p) UP 9.6% GAS - Standing charge: 31.66p ???

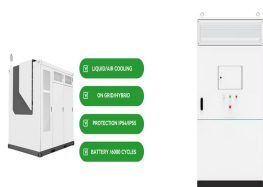

Watt Solar Generator wholesale - Select 2024 high quality 3000 Watt Solar Generator products in best price from certified Chinese Solar Power System For Home manufacturers, Solar Power Battery Charger suppliers, wholesalers and factory on Made-in-China

They have communicated that the reason for change is the energy price cap going up, to reflect the rising energy wholesale prices. The cost of installation is with the home owner, not the energy supplier, as you know. So it's not they have any CAPEX on home solar installations - in fact they are selling them at a profit.

A portable solar generator is a combination of a power station and a solar panel. The power station stores energy in batteries, and the solar panel collects energy from the sun and converts it into electricity.

The UK's energy supply is bought on the wholesale energy market. Suppliers buy energy from generators at a wholesale price, which covers the cost of producing the energy. There are several ways to determine how wholesale energy is priced. In Britain, we use "national pricing", so there is just one price for wholesale energy at any one time.
