

# ENERGY STORAGE INCLUDED IN NATIONAL STRATEGY

What is China's new energy storage development plan? On March 21, the National Development and Reform Commission (NDRC) and the National Energy Administration of China issued the New Energy Storage Development Plan During China's "14th Five-Year Plan" Period. The plan specified development goals for new energy storage in China, by 2025, new

Can China develop energy storage technology and industry development? Under the direction of the national Guiding Opinions on Promoting Energy Storage Technology and Industry Development policy, the development of energy storage in China over the past five years has entered the fast track.

Will China achieve full market-oriented development of new energy storage by 2030? The country has vowed to realize the full market-oriented development of new energy storage by 2030, as part of efforts to boost renewable power consumption while ensuring stable operation of the electric grid system, a statement released by the National Development and Reform Commission and the National Energy Administration said.

How will new energy storage technologies develop by 2030? By 2030, new energy storage technologies will develop in a market-oriented way. Newer Post NDRC and the National Energy Administration of China Issued the Medium and Long Term Development Plan for Hydrogen Industry (2021-2035)

Will energy storage industrialization be a part of the 14th five-year plan? While looking back on 2020, we also looking forward to the development of energy storage industrialization during the 14th Five-year Plan, as policy and market mechanisms become the key to promote the full commercialization and large-scale application of energy storage.

# ENERGY STORAGE INCLUDED IN NATIONAL STRATEGY

When will new energy storage development be introduced? The commission said earlier it will introduce a plan for new energy storage development for 2021-25 and beyond, while local energy authorities should also make plans for the scale and project layout of new energy storage systems in their regions.

On March 21, the National Development and Reform Commission (NDRC) and the National Energy Administration of China issued the New Energy Storage Development Plan During China's "14th Five-Year Plan" Period. The ???
