

# ENERGY STORAGE SYSTEM EQUIPMENT

## QUOTATION DETAILS

What should be included in a battery energy storage quote? Safety exclusion zone around battery energy storage system if required. Location of main switchboard. Any other existing NET on site. Quotation should indicate whether the battery energy storage system is portable for customers to relocate to a different location in the future.

What is a pre-assembled integrated battery energy storage system? Pre-assembled integrated BESS: Battery energy storage system equipment that is manufactured as complete, pre-assembled integrated package. The equipment is supplied in an enclosure with PCE, battery system, protection device(s) and any other required components as determined by the equipment manufacturer. 1. Technology Summary

How should battery energy storage system specifications be based on technical specifications? Battery energy storage system specifications should be based on technical specification as stated in the manufacturer documentation. Compare site energy generation (if applicable), and energy usage patterns to show the impact of the battery energy storage system on customer energy usage. The impact may include but is not limited to:

What is a battery energy storage system? Battery energy storage system (BESS): Consists of Power Conversion Equipment (PCE), battery system(s) and isolation and protection devices. Battery system: System comprising one or more cells, modules or batteries. Pre-assembled battery system: System comprising one or more cells, modules or battery systems, and/or auxiliary equipment.

What components are included in a battery energy storage system? The equipment is supplied in an enclosure with PCE, battery system, protection device(s) and any other required components as determined by the equipment manufacturer. 1. Technology Summary Provide a summary of the purpose of owning a battery energy storage system. This may include but is not limited to:
