---

How much does a residential energy storage system cost? According to reports, the cost of the energy monitor for a residential energy storage system is \$300 and the battery system is \$2,200 for 1.8 kW/2.2 kWh. The firm claims that the system can be installed 'without utility approval or permits'.

Can vanadium flow batteries be used for energy storage? Vanadium flow batteries are a type of energy storage that have been selected for funding by the California Energy Commission as part of a \$20 million drive towards commercializing long-duration, non-lithium energy storage. Invinity Energy Systems will be implementing these projects.

What is Eos Energy Storage? Eos Energy Storage is a manufacturer of zinc-based battery technology. It was listed on the Nasdaq after its acquisition by a SPAC. Eos aims for \$50 million in revenue in 2021 and \$260 million in 2022. The company entered a partnership with utility developer Hecate Energy to provide batteries for projects in Colorado, New Mexico, and Texas.
