Who is EnergyWise systems? Through Research. Email Sign up Happy to receive monthly updates on our products? ENERGYWISE SYSTEMS We manufacture and design LED lighting for industrial, horticultural and commercial use. Proudly manufactured in South Africa using European LED Technology

Who is EnergyWise Ireland? At Energywise Ireland we have over 15 years of experience, we will design, supply, and install a tailor-made system just for you. Take a look at one of our latest installations a?? a brilliant 7.88kWp system that's set to significantly lower electricity costs for the homeowner.

What is The Energywise production team? The Energywise production team is a SWAT unit in the production world. Small, highly motivated and able to execute against incredible odds without batting an eyelid. They are where the rubber meets the road for Energywise. The laboratory, RnD department and grand schemes of our CEO all come to nothing without this teams ability to deliver.

What services does The Energywise laboratory offer? The Energywise laboratory can offer you the following services to assist you in finding out about: for more info info@energywise.co.za Measurements are taken via our thermal cameras capturing the effects of heat on luminaire performance.

What software does energy wise use? The Energy wise team make great use of SolidWorks(R). A fully immersive 3D design software that allows for quick and accurate luminaire design and visualization. The software can create realistic renderings to present clients with an image of how their product will look before a prototype is made.

ENERGYWISE SYSTEMS PORTUGAL
