

ESI BATTERY BERMUDA

Where are ESI batteries made? ???Importantly,ESI???s batteries will be manufactured in a new \$70 million Maryboroughfacility by skilled workers helping to drive a low carbon future for Australia and the Asia-Pacific region. We look forward to working with Stanwell to deliver this and future projects,which are critical to supplying Queensland???s long-term energy needs.???

How many grid-scale batteries will ESI install in Queensland? We have already installed 10 grid-scale batteriesat a Queensland facility,helping to secure Queensland???s clean energy future,with a further 10 batteries en route. By the end of 2026,ESI will produce 200MW |1.6GWh of energy storage annually. With an ambition to expand to 400MW |3.2GWh.

Will ESI deliver 20 12m-long batteries to Stanwell? ESI is delivering 20 12m-long batteries to Stanwellas part of a pilot project that creates 1 MW/10 MWh of medium-duration energy storage ??? the first base-load iron flow battery in Australia and the largest in the world.

Will ESI's battery accelerate Queensland's Energy Transformation? ESI???s battery is the first technology to be tested at Stanwell???s Future Energy and Innovation Training Hub (FEITH) to accelerate Queensland???s energy transformation at Stanwell Power Station near Rockhampton.

Will ESI develop a grid-scale iron flow battery storage system? Premier Annastacia Palaszczuk has announced a binding agreement for publicly owned electricity generator Stanwell Corporation to develop grid-scale iron flow battery storage systems with ESI.
