

FALKLAND ISLANDS SUN STORAGE

What is the Falkland Islands Environment Strategy 2021 ??? 2040? The Falkland Islands Government is proud to launch its flagship Environment Strategy 2021 ??? 2040, which recognises the central and universal role that the natural environment plays in the sustainable development of our health and wellbeing, our economy and our nation as a whole.

What is the climate like in the Falkland Islands? The climate of the Falkland Islands is cool and temperate, regulated by the large oceans which surround it. The Falkland Islands are a British Overseas Territory located over 480 kilometres (298 mi) from South America, to the north of the Antarctic Convergence, where cooler waters from the south mix with warmer waters from the north.

Why is the environment important in the Falkland Islands? The environment is essential for human existence. We rely on our ecosystems to provide us with clean water, air, food and shelter. In the Falkland Islands, the foundations of our livelihoods are reliant on our environment ??? our key sectors would not exist without our natural resources.

Where are the Falkland Islands located? The Falkland Islands are an archipelago formed from detached African continental crust in the South Atlantic Ocean, joined as a projection of the Patagonian Shelf (51° 42' S, 57° 51' W), 483 km east of South America's southern Patagonian coast and 1287 km north of the Antarctic Peninsula.

Where can I find a plan for the Falkland Islands? FIG and c/o Glenn figure as the applicant. The plans and details can be viewed at the Planning Office, Secretariat, Stanley and on the Falkland Islands Government Planning & Building Services Facebook page. Anyone wishing to comment on these applications must do so in writing, to the Planning Officer, by 2 February 2024.
