practitioners to present research activities that might want to attend
events, meetings, seminars, congresses, workshops, summit, and ???

4 ? DRI, a renewable energy company based in Amsterdam and a
subsidiary of the DTEK Group, has announced the signing and completion
of a purchase agreement to develop a 166 MWp solar portfolio in Sardinia,
Italy. The portfolio, named Project Nox, comprises four solar projects
acquired from Enerland, a solar engineering, procurement, and
construction firm.

The development of renewable energy sources has been one of the
priorities of Italy's energy policy for some time, together with the promotion
of energy efficiency. The objectives of such a policy are: energy supply
security, reduction in energy costs for businesses and individual citizens,
promotion of innovative technology, environmental

Enfinity Global Inc., a leader in renewable energy, has closed 165 million in financing aimed at building a portfolio of three utility-scale solar power plants with a combined capacity of 147 MW, . . . ENFINITY GLOBAL LLC Enfinity Global closes 165 million financing for 147 MW solar energy projects in Italy. December 12, 2024. Enfinity

Annual and cumulative installed photovoltaic capacity (in MW) since 2000. Solar power is an important contributor to electricity generation in Italy, accounting for 11.8% of total generation in 2023, up from 0.6% in 2010 and less than 0.1% in 2000. [1]Total installed solar power capacity in the country reached 30.3 GW at the end of 2023.

Just over 80% of Italy's solar energy systems used tracker structures. One area where Italy differed significantly from its neighbors was in structure preferences. Unlike most European countries, Italy's solar projects predominantly favored tracker systems, using them 80.02% of the time in the RatedPower platform. Italy only used a fixed

Southern Italy holds the greatest solar potential as displayed in Figure 20, as it is predicted to nearly produce nearly double the kiloWhatt-hours per installed kilowatt-Peak (the highest amount of energy a given installation can collect) as the Northernmost areas of Italy (Solaris, 2021). Southern Italy is a hub for solar research and
