

FORSEE POWER MOROCCO

Who is Forsee power? A pioneer in the design and manufacture of high value-added battery systems, Forsee Power has positioned as a leader in its markets and benefits from a unique presence in Europe (France and Poland), Asia (China and India) and in North America (Ohio).

Where are the forSee power batteries made? buses equipped with Forsee Power batteries, a unique situation outside of China light vehicles equipped with Forsee Power batteries factories on 3 continents in France, Poland, China, India and the USA engineers and 3 R&D centers in France and China Ecovadis sustainability rating: in the Top 2% of battery companies

What makes Forsee power unique? Our Forsee Power experts develop innovative solutions with the latest and most robust battery cells available on the market and proprietary Battery Management Systems that integrate high-performance electronics, accurate voltage readings and efficient communication systems.

How many battery systems does Forsee power have? Forsee Power has announced that it has designed and produced 1,200 battery systems for electric buses to date, confirming its European leadership. Forsee Power has announced the renewal of its partnership with IVECO France with its two brands, IVECO Bus and Heuliez Bus. Forsee Power and Connected Energy to Extend Use of Transport Batt

Which vehicles are equipped with Forsee power batteries? light electric vehicles worldwide are equipped with Forsee Power batteries. buses worldwide are equipped with Forsee Power batteries. tonnes of Co2 equivalent will be avoided over the lifetime of the heavy vehicles equipped by Forsee Power in 2022.

FORSEE POWER MOROCCO

What is Forsee power's sustainability strategy? In 2019, Forsee Power started to work on its sustainability strategy, defining key focus areas and a sustainability roadmap toward 2025 including ambitious goals. The first area focuses on our actions and contributions to mitigate climate change, through our products and services as well as our supply chain and logistics.

Les transports sont responsables de 37 % des émissions de CO2 dans le monde. Alors que le réchauffement climatique est devenu l'une des plus grandes menaces auxquelles le monde ait jamais été confronté, chez Forsee Power ???

Avec la batterie PULSE 15 haute puissance de Forsee Power, vous bénéficiez d'une puissance nominale de 8,5 C (127 kW) en pic et de 4,5 C (63 kW) en continu ! Elle est essentielle pour les ???
