In order to adapt to the global trend of Carbon Peaking and Carbon Neutrality, low-carbon data centers will be the future development trend. Compared with the traditional lead-acid battery as backup power solution, the ESS solution has the advantages of higher safety at any time, higher system integration, and more reasonable charging and discharging strategies.

The platform allows operators to visualize system performance, identify issues, and optimize energy usage. Benefits include improved energy efficiency, reduced downtime, predictive maintenance, and enhanced safety, leading to cost ???

Als wissenschaftliches und technologisches Innovationsunternehmen spezialisiert sich Shanghai Elecnova Energy Storage Co., Ltd. auf die Integration und Unterst?tzung von ESS einschliesslich PACK, PCS, BMS und EMS. Unter Beachtung der Werte, Produkte als Kern und Qualit?t als Grundstein, verpflichtet sich Elecnova, die vielf?ltigen Bed?rfnisse von Marktsegmenten und ???

Energy storage can jointly control distributed energy resources through EMS and the main grid, to stabilize the fluctuations of distributed energy resources and ensure stable output. It improves the on-site utilization of distributed energy, and prevents transmission pressure and power loss in long-distance transmission.

The 20-ft liquid-cooled ESS container product integrates PACK, EMS, BMS, HVAC, fire safety system into one container. Compared with the air cooling, the liquid cooling empowers the Ess product with higher power density and ensures the temperature difference between the cells within 3°C, which effectively extends battery service life and improves energy efficiency.

This can effectively reduce the operating costs of charging station to achieve energy arbitrage. . The Elecnova ESS products can be applied in PV-plus EV charging station with ESS projects. The PV and EV are connected to the low-voltage grid to realize the local consumption and storage of PV energy. EMS can control the ESS to complete energy

The all-in-one air-cooled ESS cabinet integrates long-life battery, efficient bidirectional-balancing BMS, high-performance PCS, active safety system, smart distribution and HVAC in into one cabinet, enabling long-term operation with safety, stability and reliability.
