

# GEORGIA SHARP SOLAR PANEL

---

Who makes Sharp Solar panels? Peter Thiele, President of Sharp Energy Solutions Europe Sharp's portfolio of high-performance solar modules is built for residential, commercial and free-field installations. We constantly adapt our range of PV panels to the latest technologies and check every new technology thoroughly before use to ensure longevity.

Are sharp solar panels a safe bet? Sharp solar PV panels are always a safe bet. This is because we focus on providing proven technology that has passed rigorous tests and will perform for decades to come. Our PV line-up covers various sizes of monocrystalline half-cell panels for residential, commercial & industrial solar power systems and multi-megawatt solar panel farms.

What types of solar panels does Sharp Energy Solutions Europe offer? Our PV line-up covers various sizes of monocrystalline half-cell panels for residential, commercial & industrial solar power systems and multi-megawatt solar panel farms. Sharp Energy Solutions Europe collaborates with partners for the realisation of large-scale PV systems in the EMEA region

Who is Sharp Solar Energy? Providing solar energy solutions has been Sharp's core competence for 65 years. To date, Sharp has delivered more than 50 million cutting edge photovoltaic (PV) panels worldwide, meeting the needs of thousands of international solar energy customers.

How many solar panels does sharp sell? To date, Sharp has delivered more than 50 million cutting edge photovoltaic (PV) panels worldwide, meeting the needs of thousands of international solar energy customers. From our European office we sell our solar power systems to installers, distributors and project companies in Europe, the Middle East and Africa.

# GEORGIA SHARP SOLAR PANEL

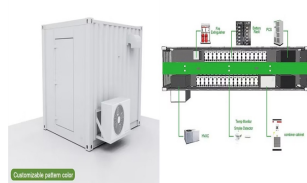

Where are sharp solar panels used? Sharp solar panels are operating in many areas; from family homes and installations in extreme environments such as lighthouses and satellites, to recently completed megawatt-scale solar power plants. 'Sharp's innovation and developments into module technology over half a century have allowed us to always improve and adapt to market circumstances.
