

# GIBRALTAR GREATCELL SOLAR LTD

---

Who is GreatCell Solar? Australia-based GreatCell Solar, formerly known as Dyesol, was founded to develop, scale-up and commercialize 3rd generation solar PV technologies, and currently the company focuses on perovskite solar cell (PSC) materials and technologies.

Who is GreatCell Solar Italy? Our Italian company, Greatcell Solar Italy, is a long term sponsor of the HOPV (Hybrid and Organic PhotoVoltaic) international conference. The conference is the main yearly scientific event in the field of third generation solar. Read more

What does Greatcell do? One of GreatCell's main activities is the development and supply of photoactive materials, mostly for R&D. The company started offering perovskite materials about 4 years ago, during which these materials became the bulk share of its material sales - a testimony to the global interest in perovskite technologies.

When did GreatCell Solar close? Greatcell Solar closed its last funding round on Apr 10, 2018 from a Grant round. Who are Greatcell Solar's competitors? Alternatives and possible competitors to Greatcell Solar may include Tokamak Energy, Scatec Solar, and CalWave Power Technologies.

Who are the new directors of Greatcell energy? Read more The Board of Greatcell Energy has been significantly strengthened by the recent appointment of Andrew Carstens as a Director and Uwe Boettcher and Sylvia Tulloch as Alternate Directors. Read more

Does Greatcell sell perovskite? For the perovskite market, GreatCell offers perovskite compounds, in addition to more advanced products such as TiO<sub>2</sub>, ITO and perovskite covered glass, which offers early-stage researchers a way to save time and effort with such processes.
