Could cigarette butts be a boon for green energy? A group of South Korean researchers at the Environmental Material & Process Lab at Seoul National University have found a way to transform cigarette butts from harmful waste to a boon for green energy initiatives.

Can cigarette filters be used to store energy in supercapacitors? In a recent paper in the journal Nanotechnology, the researchers demonstrated a one-step process for turning used cigarette filters (the main component of butts) into a material that can be used to store energy in supercapacitors???components that can be used alongside batteries in the electrical grid, consumer electronics and electric vehicles.

What is the White Book for energy storage industry in 2014? White book for energy storage industry in 2014. China Energy Storage Alliance 2014. China Electricity Council. The study on the development policy of energy storage industry. China Power Enterprise Management 3; 2015. p. 24???28. Global energy storage distribution: the US accounts for 40% and Japan accounts for 39%.

Does energy storage industry need a policy guidance? Sungrow Power Supply Co., Ltd.: energy storage industry needs the policy guidance urgently. Machinery & Electronics Business; 2015-6-22: A06. Policy and innovation are key factors for the development of energy storage technology. China Electric Power News; 2016-4-28: 008. Lin Boqiang.

Does energy storage need a reasonable electrovalence policy? The large-scale promotion of energy storage needs reasonable electrovalence policy. China Energy News; 2015-9-28: 017. The price and subsidy scheme of micro grid will be issued and the energy storage industry would step in new era. Shanghai Securities News; 2015-6-4: F02.
