

# HUIJUE ENERGY STORAGE SHIPMENT RANKING

Which Chinese energy storage manufacturers are the best for 2023? In a highly anticipated release, Black Hawk PV has disclosed the top ten rankings of Chinese energy storage manufacturers for 2023. Leading the pack is CATL with an impressive 38.50% market share and a robust shipment volume of 50 GWh.

Which energy storage cell manufacturers have the most shipments in 2024? In the first three quarters of 2024, global utility-scale energy storage cell shipments reached 180 GWh, up 49.4% YoY. The top five manufacturers, CATL, EVE Energy, Hithium, CALB, and BYD, dominate the market, with the top two holding nearly 55% combined share. Hithium, CALB, and BYD each shipped over 10 GWh with similar volumes.

Which Korean companies have a low shipment volume? Korean manufacturers Samsung SDI and LG, on the other hand, saw low shipment volumes, with their combined market share dropping to around 5%. In the utility-scale sector, the top five companies are CATL, EVE Energy, Hithium, REPT, and BYD. The top two predominated, with CATL shipping more than 40 GWh and EVE Energy shipping nearly 15 GWh.

Why is Great Power ranked eighth in the storage industry? Great Power's significant boost in residential storage shipments has propelled its ranking to eighth. Downturns: Given the excellent performance of Chinese manufacturers, the market share of South Korean peers has been squeezed. SDI and LG rank tenth and eleventh in the industry, with their combined market share dropping.

Is energy storage overcapacity a problem in China? Despite concerns about overcapacity, the energy storage industry in China persists in its wave of capacity expansion. The production of energy storage lithium batteries surpassed 110 GWh from January to August 2023, according to data from China's Ministry of Industry and Information Technology.
