

IRAQ DIAN ENERGY LTD

What is the future of electricity supply in Iraq? There are a number of pathways available for the future of electricity supply in Iraq but the most affordable, reliable and sustainable path requires cutting network losses by half at least, strengthening regional interconnections, putting captured gas to use in efficient power plants, and increasing the share of renewables in the mix.

Is foreign help enough to fix Iraq's energy problems? Foreign help is not enough to fix energy issues, domestic reform is necessary. This past July, Iraq and France's TotalEnergies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

Does Iraq have a natural gas deal? In 2022, Iraq was the second-largest source of gas flaring worldwide, second only to Russia. The TotalEnergies deal aims to help Iraq harness the natural gas emitted by its oil wells, achieve a more balanced energy portfolio, and address some of its domestic electricity shortages.

What does the TotalEnergies deal mean for Iraq? The TotalEnergies deal aims to help Iraq harness the natural gas emitted by its oil wells, achieve a more balanced energy portfolio, and address some of its domestic electricity shortages. It would also be significantly cheaper for Iraq to harness its own gas rather than to continue with its current agreement with Iran.

Who are China's oil companies in Iraq? China's influential energy entities, including China National Petroleum Corporation (CNPC), have been entrenched in Iraq for years, marking a significant transformation of international oil companies within the nation.
