

# IS THE INDEPENDENT SHARED ENERGY STORAGE PROJECT APPROVED OR FILED

System Topology

Will Huaneng Mengcheng wind power 40mw/40mwh energy storage project be connected? On August 27,2020,the Huaneng Mengcheng wind power 40MW/40MWh energy storage project was approved for grid connectionby State Grid Anhui Electric Power Co.,LTD.

System Topology

Who provides energy storage & wind power in China? Project engineering,procurement,and construction (EPC) was provided by Nanjing NR Electric Co.,Ltd.,while the project??s container energy storage battery system was supplied by Gotion High-tech. This project is currently the largest combined wind power and energy storage project in China.

System Topology

What is the largest combined wind power and energy storage project in China? This project is currently the largest combined wind power and energy storage project in China. The Inland Plain Wind Farm Projectin Mengcheng County is owned by the Anhui Branch of Huaneng International. The project has a total installed capacity of 200MW,with a paired energy storage capacity of 20% and duration of one hour.

System Topology

Who owns the inland plain wind farm project in Mengcheng County? The Inland Plain Wind Farm Project in Mengcheng County is owned by the Anhui Branch of Huaneng International. The project has a total installed capacity of 200MW,with a paired energy storage capacity of 20% and duration of one hour. The energy storage system construction is divided into two phases.

System Topology

What is the control system of the energy storage station? The control system of the energy storage station adopts the IEC-61850standard specification,achieving fast power control function through a unified hardware and software platform consisting of a coordinated control system and converter group. Primary frequency control and voltage control response speed is less than 30ms.
