In 2020, a fire at a 20MW lithium battery storage plant in Liverpool took 59 hours to extinguish. Nearer to home, in February, Swale Borough Council's planning committee voted down the battery safety management plan for the 150MW storage facility at Cleve Hill solar farm, near Graveney, one of the UK's largest.

A Battery System can make full use of the power generated by your solar panels, ensuring that any unused power is stored on site to be used later when needed. If your electricity is supplied with two rates (a day rate and cheaper night rate), the solar + battery combination ensures that peak rate electricity usage is kept to a minimum.
