Will Israel build its first large-scale energy storage project?

JERUSALEM, May 2 (Reuters) - Israel's Energy Ministry said on Tuesday that it was moving forward with a plan to build the country's first large-scale energy storage project.

How many batteries does Israel need? According to Meir Elran, a scholar at the Institute of National Security Studies in Tel Aviv, Israel would need a total of 20 batteries to provide adequate defense for its borders with Gaza and Lebanon.

Can a 24-megawatt battery store excess power? The government approved a pilot - a 24-megawatt battery facility - to store excess power from peak production times that will be drawn on by some 3,000 households in the city of Bnei Barak, an ultra-Orthodox enclave in central Israel.

Will Israel build a megawatt power plant? It will be built by state-owned Israel Electric Corp for up to 120 million shekels (\$33 million) and privatised after three years. If successful, hundreds of megawatts in storage facilities will be built nationwide, the ministry said, without giving a timeframe. Our Standards: The Thomson Reuters Trust Principles.

Will Israel create a 'kosher' energy network for ultra-Orthodox Jews observing the Sabbath? REUTERS/Mussa Qawasma JERUSALEM, May 7 (Reuters) - Israel approved on Sunday a plan to create an energy storage network in cities to produce off-peak electricity, which will also supply "kosher" electricity for ultra-Orthodox Jews observing the Sabbath.

Where is a power distribution plant located in Israeli occupied West Bank? An Israeli power distribution plant is seen in Hebron in the Israeli-occupied West Bank January 22, 2020. REUTERS/Mussa Qawasma
