Will Italy reach 72 GWh energy storage capacity by 2030? New Aurora Energy Research report details Italy's path to 72 GWh energy storage capacity by 2030. ROME, ITALY (AURORA ENERGY RESEARCH) A new report published by Aurora Energy Research, the global provider of energy market analysis, examines the auction system of the Italian Energy Storage Capacity Procurement Mechanism (MACSE).

How will MACSE change energy storage requirements in Italy? There are stark differences in energy storage requirements across Italy and MACSE procurement targets will adapt to these zonal needs. Most of the new utility-scale storage capacity catalyzed by MACSE will be needed in Southern Italy and the islands, with 16.8 GWh in the South, 13.6 GWh in Sicily, and 10.4 GWh in Sardinia.

Which Italian company manufactures energy storage systems & batteries in-house? The transaction will position Energy as the only Italian company to manufacture the energy storage system and storage batteries in-house, it said.

Where is energy dome based? Home >> Storage >> Italian company behind carbon dome energy storage sets up a base in Melbourne Italian long-duration energy storage company Energy Dome will establish its new APAC headquarters in Melbourne as it continues to identify potential sites in Victoria to deploy its proprietary CO₂ Battery.

How much storage capacity will Italy need by 2030? Namely, according to the updated scenario developed by gas company Scam and power grid operator Terna, Italy will need 72 GWh of storage capacity by 2030 to meet the EU's Fit for 55 package goals. Around 50 GWh of this capacity will be allocated to new utility-scale systems supported by MACSE to complement the growing penetration of renewables.
