

ITALIAN ENERGY STORAGE COMPANY

Are battery energy storage systems a good idea in Italy? Storage systems can therefore maximize clean electricity generation and are indispensable for achieving decarbonization goals, thus reducing reliance on fossil fuels and contributing to the country's energy sustainability. To date, Enel Green Power has three battery energy storage systems in operation in Italy, with a total capacity of 133 MW.

Is there a real energy transition in Italy? There can be no real energy transition in Italy without electricity storage systems. And here Enel Green Power is also playing a leading role, particularly in battery energy storage systems (BESS), which are increasingly efficient and competitive, thanks to technological innovation.

What are Italy's energy goals? Italy's ambitious energy goals, outlined in the National Integrated Energy and Climate Plan (PNIEC), mark a transformative shift toward renewable energy. By 2030, the country is targeting 28GW of wind power and nearly 80GW of solar capacity, making energy storage essential for ensuring grid stability and maximizing renewable integration.
