

JAZA ENERGY LEBANON

What is JAZA energy? Jaza Energy provides access to clean and affordable energy for rural, low-income households in Sub-Saharan Africa. Their home power pack rental service is 100% women-operated and has been designed to serve homes that earn less than \$2 a day.

How can JAZA Help Africa? Jaza can enable these areas to leapfrog from no energy access straight to clean energy. "Our job won't be done until 600 million people are powered by Jaza" Jeff asserts. While the fundamental goal is to address climate change by eliminating emissions in rural Africa, Jaza's energy hubs are doing so much more for these communities.

What is JAZA & how does it work? Jaza's solution targets the largest underserved market on the planet with the fastest growing population. Their centrally-located, solar powered battery charging hubs reduce GHG emissions while providing safe and consistent energy without centralized grid infrastructure.

Can JAZA help the Earth? The earth just can't tolerate a population that size electrifying the way that previous populations have. Jaza can enable these areas to leapfrog from no energy access straight to clean energy. "Our job won't be done until 600 million people are powered by Jaza" Jeff asserts.

What is JAZA energy's battery swap business? Jaza Energy has developed an innovative battery swap business that provides clean solar energy to last-mile rural Tanzanian and Nigerian households earning less than \$2 per day.

JAZA ENERGY LEBANON

How many JAZA energy hubs are there? Today, Jaza operates almost 100 energy hubs serving nearly 40,000 people with some 55,000 portable lithium powered battery packs. By the end of the year, Jeff hopes to serve 100,000 people. A Jaza Energy Hub In 2021, Jeff sees Jaza expanding its services to Nigeria and Uganda, but their long-term goal is much broader.

Jaza Energy has developed an energy hub distribution model for providing affordable electricity in off-grid communities. The system works on the basis of a single centralised solar energy hub for charging battery packs, which also provides energy to anchored loads such as water systems, shops, schools, and community infrastructure.

Operations Management | Quality Assurance Lead ? I& #39;m a seasoned operations manager who gets the best out of my team and stays laser-focused on agreed deliverables.
