

# JINYUN ENERGY STORAGE POWER STATION LATEST NEWS

Where is Jinyun pumped storage hydroelectric power project located? The Jinyun pumped storage hydroelectric power project is located in Dayang and Fangxi, in Jinyun county, Lishui city, Zhejiang province, China. The project site lies in the middle-low mountainous area of southern Zhejiang, on the south-west side of the Kuocang Mountains.

What is the Jinyun hydropower project? The Jinyun hydropower project is a 1.8GW pumped storage power plant under construction in the Zhejiang province of China. It is being developed by Zhejiang Jinyun Pumped Storage, a joint venture of State Grid Xinyuan (70%) and State Grid Zhejiang Electric Power (30%), with an estimated investment of ¥1.14bn (\$1.5bn).

How many pumped-storage hydroelectricity stations are there in Xinyuan? As of the end of May last year, State Grid Xinyuan had 23 pumped-storage hydroelectricity stations in operation, with an installed capacity of 24.67 million kW, accounting for 61 percent of the nation's total.

How many pumped-storage hydropower stations will China have in 2025? According to estimates from the China Renewable Energy Engineering Institute, with more than 200 pumped-storage hydropower stations to be installed during the 14th Five-Year Plan (2021-25) period, its total installed capacity will reach 62 million kW by 2025.

What is Fengning pumped storage power station? Capable of harnessing the power of nature and storing and releasing energy as needed, the structure ??? Fengning Pumped Storage Power Station ??? is known as the world's largest "power bank". In the valley where the station stands, a pair of reservoirs have been constructed at different elevations.
