Our history, reputation, and track record in Office Support recruitment hasn't happened by chance: it's because we have always understood the value of going that extra mile in building strong, long-term working relationships and working in partnership and collaboration with clients and candidates alike.

However, the UK climate makes this impractical. Very little solar energy is available at the time of the year when your heat demand is greatest. A fairly large 4kW solar PV roof (around 30m²) will produce around 15kWh of electricity per day in May or June, but only 3 or 4 kWh on a typical day in December or January. A heat pump may need about
