

# KOSOVO MOBILE ENERGY STORAGE POWER PLANT IS IN OPERATION

Does Kosovo have a battery storage plan? According to its energy strategy, Kosovo also plans to hold two auctions for battery storage projects with a cumulative capacity of 170 MW. The minister expects that 45 MW/90 MWh and 125 MW/250 MWh battery storage procurement exercises will be launched this year in cooperation with US-based Millennium Challenge Corp. (MCC).

Will Kosovo invest in solar power projects in Pristina? Another procurement exercise will seek to deploy a solar district heating project in Pristina. According to its energy strategy, Kosovo also plans to hold two auctions for battery storage projects with a cumulative capacity of 170 MW.

What is Kosovo's Energy Strategy? The energy strategy foresees 170 MW in battery operating power. In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli.

Where does Kosovo get its power from? The Kosovo A Power Station in Obilic. The country gets the bulk of its power from coal. Image: Flickr. The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.

How much will Kosovo's new solar power plant cost? In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli. The contracts will have a combined value of EUR 180 million, she added.
