

LAOS NORDEX GROUP

Who is Nordex group? The Nordex Group is one of the world's leading OEM's with 35 years of experience in manufacturing highly efficient wind turbines for global onshore markets.

Is Nordex a Chinese company? However, the Company continues to be represented in China, particularly on the purchasing side. From a technical perspective, Nordex is focused on developing wind turbines for onshore sites that allow operators to produce environmentally friendly electricity at the lowest possible cost (Cost of Energy ??? COE) in their respective regions.

Does Nordex have a foreign market? Business is currently continuing to shift into foreign markets both inside and outside Europe, which comprised approximately 89% of order intake in 2017 (2016: 64%), underlining the global footprint of the company. Nordex withdrew from the Chinese market, which is dominated by local suppliers, several years ago.

Who makes Nordex rotor blades? Founded in 1985, Nordex has more than 30 years of industry experience. Its products regularly shape the technological development of the wind energy industry. At its own facilities, Nordex predominantly produces nacelles and hubs for wind turbines as well as a substantial share of the required rotor blades.

It is the first order that the Nordex Group received from Fortum. The order also marks the 6.X turbine variant's debut in the Nordic region. Nordex Group CSO Patxi Landa said: "We are extremely pleased to secure our first order with Fortum and even more pleased that our customer has chosen our latest generation of turbines in the 6MW class."
