Our Mini-grid Solar projects involve installing small and large-scale renewable energy systems (typically solar panels) connected to a battery storage system and distribution network, serving a community. We manage and maintain these mini-grids, earning revenue through metered usage by the community. This ensures a stable and sustainable energy

Working together with the largest Latvian private energy group AJ Power,
this summer SIA Lyngson installed the largest solar panel park in Latvia.
Within the project, 1580 solar panels with the total capacity of 489 kW
were installed on the roof of the production building. Currently, it is the
largest installed solar panel park in Latvia, and it will generate almost ???

The largest solar panel park in Latvia will be built in the territory of the Port
of Riga in Spilve meadows with a nominal capacity of at least 100MW and
a planned electricity generation of at least 100,000MWh per year, which
corresponds to the annual electricity consumption of an average large
Latvian city. It is the first step in the
