Good thing about them is they have my system to be installed by a legit subcontractor. Their crews do >50 residential installs/month mostly for SunPower and Viviant. Limited, but good reviews on them. Basically I am looking for a solar panel with the least loss due to constant small partial shading, coming from different directions.

There is no shortage of renewable power in the Faroe Islands, due to the ocean currents and tides of the Northeast Atlantic and an abundance of strong wind. With an existing network of hydropower from mountain streams and lakes, converting other sources of natural power into affordable green energy is a top priority.
