

LITHIUM BATTERY BOXES ANGUILLA

Can chemstore store lithium ion batteries? Chemstore, the hazardous materials experts, have added a fire-proof case for the safe storage and transport of lithium-ion batteries to their lithium-ion battery storage range. The Zarges K470 battery box is a high quality aluminium container which is suitable for up to 3 lithium ion batteries of 814 Wh.

What is a lithium ion battery box? The box was originally designed for transporting damaged lithium-ion batteries and is tested and approved as hazardous goods packaging in accordance with UN requirements therefore it can be transported on public roads.

Do you need a shipping box for lithium batteries? UN certified containers for transporting and storing lithium batteries are needed to comply with the regulations. ORBIS??? lithium battery shipping boxes fully hold and protect the batteries from damage or shocks of any kind. That includes isolating loose cables and poles.

Are lithium batteries flammable? It is lined with non-flammable materials and has UN approval for the safe transportation of lithium batteries in packaging group II. Our certified battery system fire protection box is the robust and reliable tool for securing damaged, defective or quarantined batteries on public roads and within buildings.

What is a lithium battery package? Our lithium battery packages are specially tested and approved to pack lithium ion batteries which feature a strong external layer that are able to withstand falls up to 1.2m with no damage dealt to its contents.

Which chemstore battery box should I buy? Chemstore already offers an outdoor storage option for lithium-ion batteries (the Electrovault) and an indoor storage option (the ION-LINE) so the Zarges K470 battery box is the perfect addition to the range.
